

C-Route IT Staffing Services

C-Route where, Requirement = Recruitment

C-Route IT Staffing Solutions was formed with the mission of providing world-class technical consultants to our clients. Our goal is to exceed client expectations in all aspects of Staffing Solutions. We seek to know the client's needs and use innovative ways of sourcing and qualifying the best candidates that fit the overall need in a hands-on way.

Our Technology Specialists have a deep understanding of our client's business requirements, business systems, workflows and commercial software. Their technical competencies include Big Data, Business intelligence, Data Warehousing, Systems Integration, Infrastructure, Project Management, Quality Assurance as well as expertise in the leading CRM, ERP and SCM solutions.

C-Route IT Staffing Solutions understands the resource and staffing challenges that IT leaders face in today's complex environments. Teamwork, culture, seniority, skill sets, industry knowledge, product knowledge and availability are among the critical factors we evaluate. Our screening process is exhaustive. Our candidates are prequalified based on industry knowledge, familiarity with the business process and workflows, technology competencies and personal behaviors to make sure they fully comply with your requirements.
